Have you ever considered straightening your teeth?

Our cosmetic dentist, Georgie, has started using an intra-oral scanner. This technology allows us to take accurate 3D digital impressions. For a limited time we can offer a free orthodontic consultation with her.

If you would like to take advantage of this offer, Georgie will create a digital impression of your teeth and mouth, review your case and discuss the treatment options with you. She will prepare a plan, with a quote so you can decide if you would like to start treatment. Please get in touch with us if you would like to book a consultation.

Did you know? Fun facts

- Giraffes have the same number of teeth as humans.
- Almost 5000 years ago, the ancient Egyptians were using a form of toothpaste. It consisted of a mixture of powdered ashes of oxen hooves, pumice and a powdery mix of burnt eggshells. They probably used their fingers as toothbrushes.

New Out-Of-Hours arrangement

We always strive to improve our services and now we have a 24/7 support in place for emergencies. This service is provided by The 247 Dentist Bristol. They are located in Westbury On Trym and they are contactable 24 hours a day on their patient line number that is 03301 759995. We have updated our answerphone text accordingly.

Practice updates

As we are getting ready for spring and we hope to leave the winter behind we would like to update you on all the latest at our Practice.

You may have had the opportunity to meet the new members of our Practice team who joined us last year, we are very lucky to have them.

- Krisztina Kurjatko, dentist (GDC Nr. 172653)
- Claire Mitchel-Miles, dental nurse (GDC Nr. 273447)
- Danielle Blackwell, dental nurse (GDC Nr. 292010)
